Myskillgrid

MAP · MEASURE · MASTER

Walk in prepared.

AI mock interviews and resume coaching for your exact job. For job seekers, training institutes and colleges in India.

PRACTICE THAT SHOWS YOU WHAT TO FIX

Interviews are hard to practise alone.

You rarely know how your answer sounded, which skills let you down, or what to fix first. Myskillgrid interviews you for the exact job you want, scores every answer, and shows you what to work on next.

Map

See the skills your job really tests, in a clear path from your first answer to interview-ready.

Measure

Get a score, feedback and a stronger answer for every question, and one readiness score for the job.

Master

Practise what will help most, until your weak skills turn into strengths.

900+	0–6 yrs	12	₹0
job titles	freshers to 6 years' experience	Indian languages for questions	to start, no card needed

How it works

1. **Choose your job**
   Search from Java developer to staff nurse, and add your resume.
2. **Take a mock interview**
   Speak your answers on a call with the interviewer, or answer on screen.
3. **See what to improve**
   Read your report, answer by answer, with a stronger answer to learn from.
4. **Practise and apply**
   Work on your weak skills, fix your resume and track every application.

Who it's for

Job seekers

Freshers and professionals with up to 6 years' experience, in IT and many other fields. **See pages 3 to 6.**

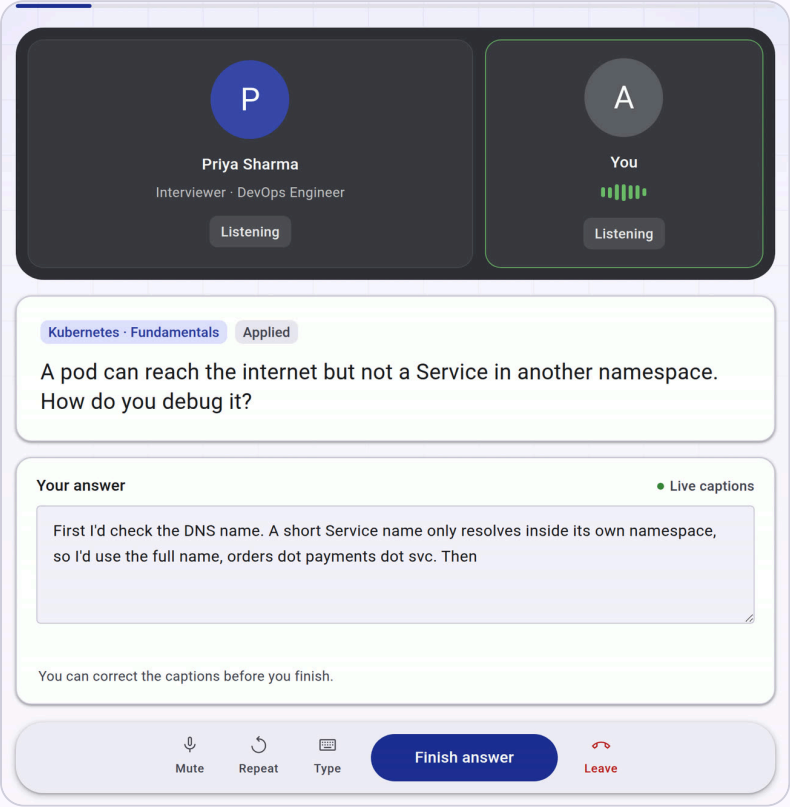

Institutes and colleges

Training institutes and placement teams who want to see where every student stands. **See pages 7 and 8.**

MOCK INTERVIEWS

Practise a real interview, out loud.

Join a call. Your interviewer asks each question out loud, and you answer by speaking, just as you would on the day.

A call or on screen

Answer out loud on a call, or read each question on screen and speak or type.

Untimed or Real

Take your time to think, or get two minutes per question, like the real thing.

Written for you

Questions for your job, your skills and your resume, one at a time.

Live captions

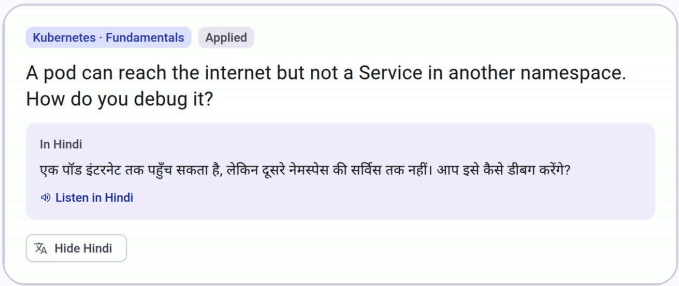

See your words as you talk, and correct them before you finish.

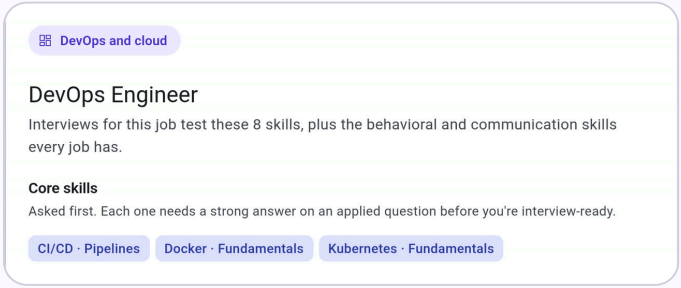

Follow-up questions

Your interviewer follows up on your answers, like a real panel.

Questions in your language

Untimed interviews can also show each question in Hindi, Telugu, Tamil, Kannada, Malayalam, Marathi, Bengali, Gujarati, Punjabi, Odia, Urdu or Assamese.

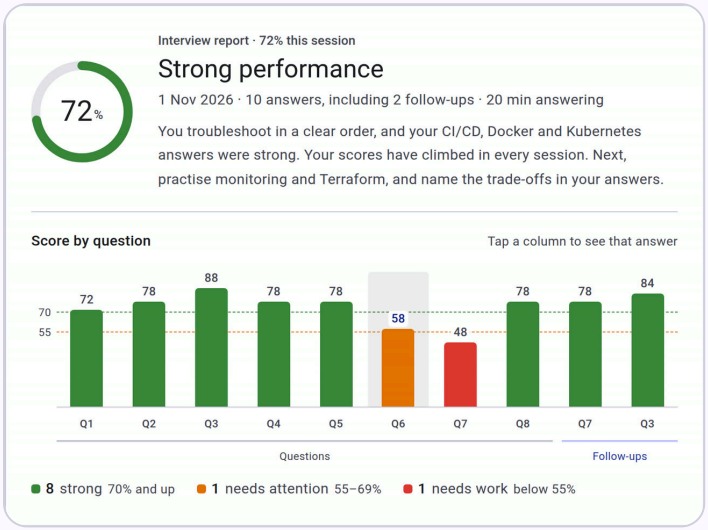

It starts with your exact job

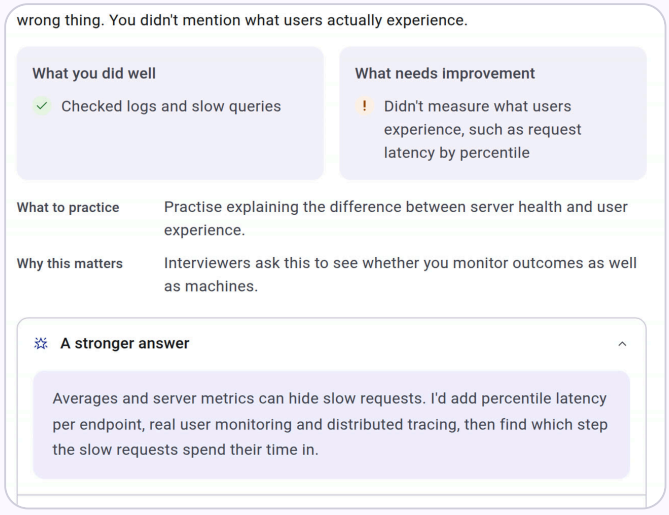

Search more than 900 job titles, from Java developer to staff nurse, and see the skills you'll be tested on. Then add your experience and your resume.

REPORTS AND PRACTICE

See exactly what to improve.

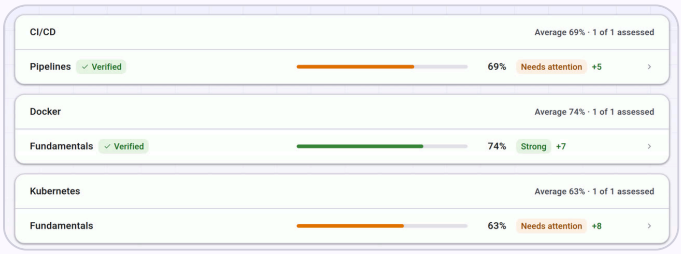

After every interview you get a report. Open any question to see what went well, what to improve, why it matters in the job, and a stronger answer.

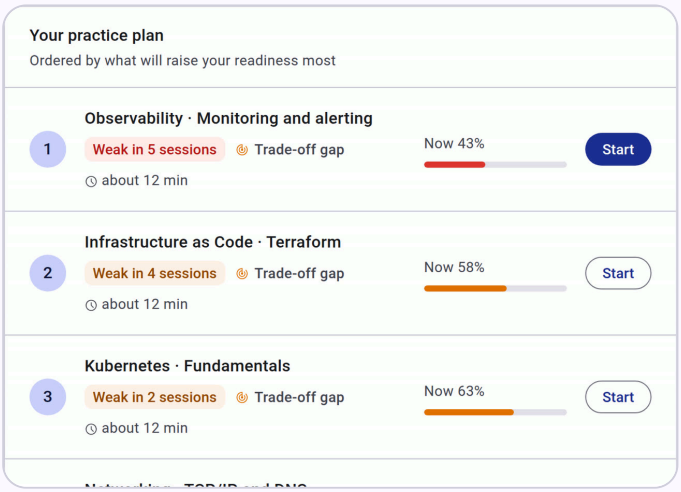

Your skills at a glance

Your skill profile shows every skill your job needs, scored from your answers rather than what your resume claims.

Your practice plan

It starts with what will raise your readiness most. Each drill is a short session on one skill, about twelve minutes.

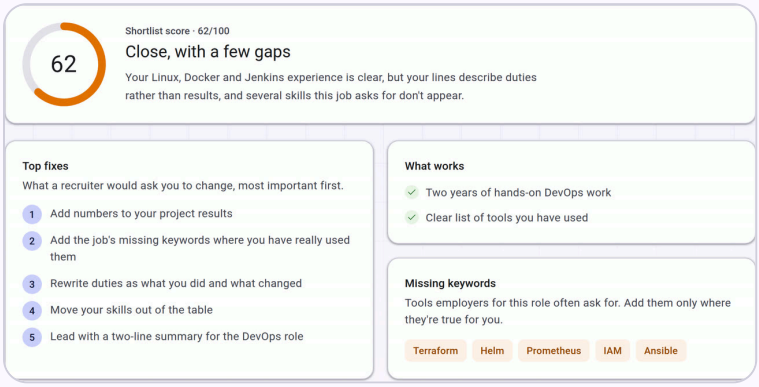

A free roadmap for every job

Core skills, supporting skills, then the HR round. Each skill climbs three steps: Fundamentals, Applied and Scenario. Open any roadmap without an account at **myskillgrid.com/roadmaps**.

RESUME REVIEW AND REWRITE

Will your resume get shortlisted?

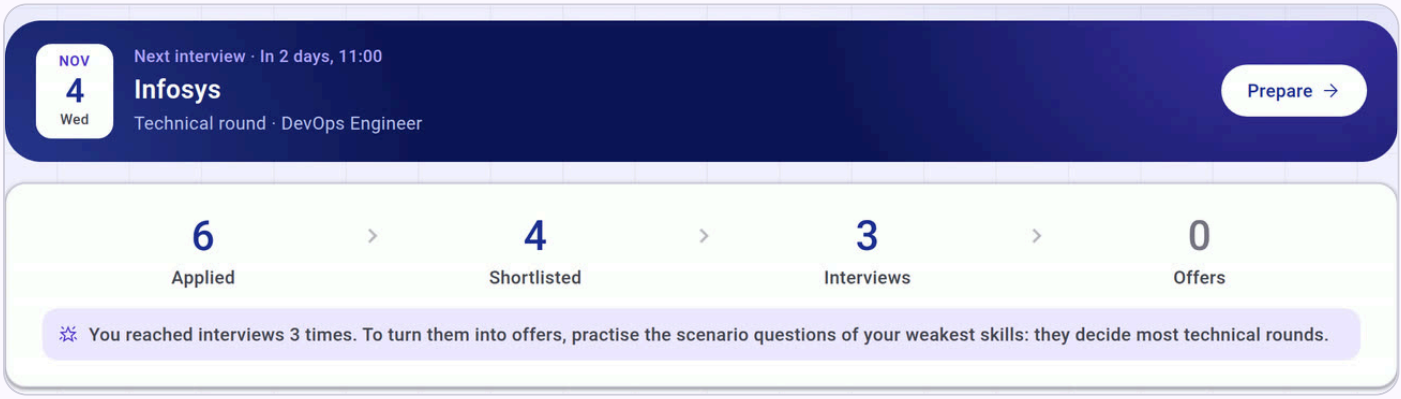

Upload your resume and choose the job. In about a minute you get a shortlist score out of 100.

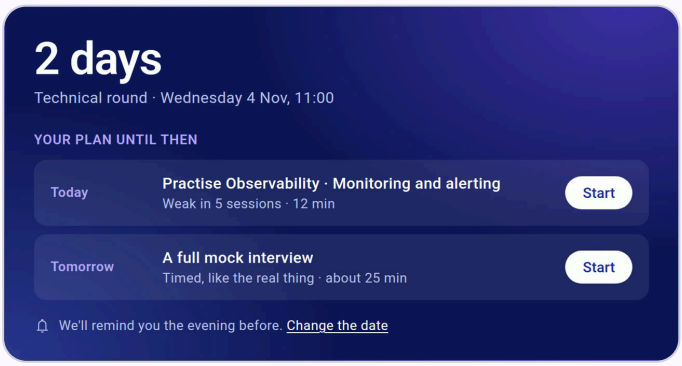

- The top five fixes, most important first
- The keywords the job expects that you're missing
- Weak lines reworded, using only facts already on your resume
- Formatting problems that affect applicant tracking systems
- **On paid plans:** a full rewrite that doesn't invent experience, highlights what only you can fill in, shows what changed and how the score moved, and downloads as a Word file

JOB APPLICATION TRACKER · FREE ON EVERY PLAN

Track every application. Prepare for every interview.

- Follow each job from saved to offer, and see how far your applications get
- See how ready you are for each job, and the skills a pasted job post asks for
- Book a round to get a day-by-day practice plan, and a reminder the evening before
- Note the questions they asked, and practise those skills

PLANS AND PRICING

Start free.
Pay once when you need more.

No subscription and no automatic renewal. Choose a pack only when you need it.

Free
Try it all before you pay.

₹0

No card needed

- 1 short mock interview (3 questions)
- Scores, feedback and a stronger answer for each question

Included on every plan

Job application tracker
Every application in one place, with a practice plan before each interview.

Your skill grid
Every skill at a glance: green is strong, orange needs attention, red needs work.

Skill card
Share your readiness and top skills with a link, never your answers or resume. Remove it any time.

Notifications and reminders
Know when a report is ready, and get a short reminder on days you haven't practised.

Invite friends
Earn a free full mock interview when a friend you invited makes a first purchase.

Install it like an app
Open Myskillgrid from your home screen, full screen, like any other app.

Your data stays yours
Your resume and answers are visible only to you. They are never sold. Delete your account and data whenever you like.

Myskillgrid

For institutes and colleges

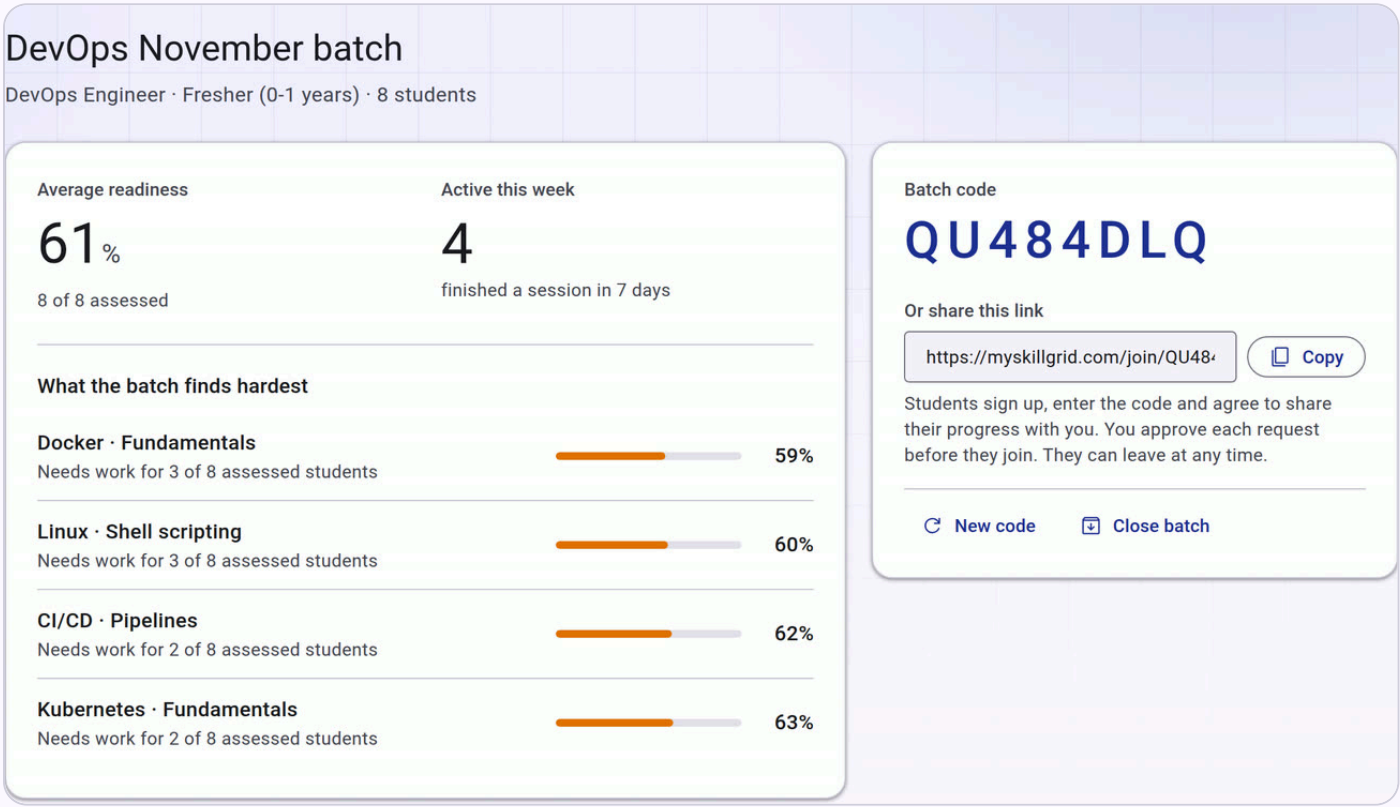

Know where every student stands before placement season.

Your students practise for their exact job. You see each one's readiness, and what the whole batch finds hard.

1 Create a batch
Choose one job and level. You get a join code and a link to share.

2 Students join
They enter the code and agree to share progress. You approve each request.

3 Track and coach
See readiness and scores, and know what to teach next.

What you see

- Each student's readiness and scores, for the batch's job
- Average readiness, and how many practised this week
- The skills the batch finds hardest
- With a student's consent: how far their applications got, and the company of any offer

What stays private

- Students' answers, recordings and resumes
- Practice from before they asked to join
- Sessions for other jobs
- Other companies, notes and job posts in their tracker

Invite your trainers
They can see batches and progress, but can't manage the team.

Students stay in control
They can leave a batch at any time, and stop sharing whenever they choose.

Myskillgrid

For institutes and colleges

INSTITUTE PLANS

Start free, then choose your batch size.

Start free with up to 5 students, each using their one free allowance. Each paid plan runs for 30 days.

Batch 30

One classroom batch.

Two batches, or one large one.

₹7,499

30 days · up to 60 students

- Shared each month: 180 mock interviews and 360 practice sessions
- Plus 120 resume reviews and 60 resume rewrites
- Batch dashboards and student progress
- One-time payment, no auto-renewal

Batch 120

A whole institute or a college department.

₹13,999

30 days · up to 120 students

- Shared each month: 360 mock interviews and 720 practice sessions
- Plus 240 resume reviews and 120 resume rewrites
- Batch dashboards and student progress
- One-time payment, no auto-renewal

Custom

For larger institutes, colleges and groups.

Let's talk

More than 120 students

- Plan length that fits your training and placement season
- Pricing we agree together
- Help setting up your batches

Top-up: ₹2,999

Add 50 mock interviews and 100 practice sessions to your running plan.

Ask for a free pilot

Ask us for a free 14-day pilot once your first batch is set up.

Students on a plan use the shared allowance first, within daily fair-use limits. Prices include all taxes.

Ready to start?

One short interview and one resume review are free. No card needed.
